

2026 Communications Manager Report

I started as the CMCC Communications Manager in Late August 2025. My duties are to monitor the info@colonymtcc.org email box, post community updates on the CMCC website www.colonymtcc.org, send out email and text blasts to lot owners with updates on community interests such as our water system and roads, and keep the Board informed of communications received. I also post the Board of Directors' monthly meeting minutes and make any other updates to the website.

Statistics from August 2025 to September 2026:

15 posts made to the website

21 email/text blasts sent to the community

Numerous responses to info@colonymtcc.org inquires

Miscellaneous:

I do not respond to every info@colonymtcc.org inquiry; many are forwarded to the appropriate Board member for response. Such as: reports of water leaks, reports of road damage, requests for HOA documents, and inquires related to semi-annual billing for dues and water.

PLEASE NOTE: info@colonymtcc.org is not for emergency updates. As well, CMCC does not provide information related to community emergencies such as fires and flooding. Should you require emergency response or updates, please call 911 or contact county (police/fire/ambulance) emergency services.

Thank you for the opportunity to serve on the CMCC Board of Directors.

Tanya Griffey
Communications Manager
